## price list

### HOW TO USE THIS PRICE LIST

Our price list will give you a sense of the standard products we carry and their general cost. We have many custom offerings that are not listed here. Please use this price list for estimation purposes only. Pricing will vary depending on the product you actually need, including grade, millwork pattern, quantity, lead time, thickness, length and width structure. Minimum orders may apply to some products. Products are produced using metric measurements and imperial measurements listed are accurate approximations. Unless otherwise noted, all offerings below are 100% post-consumer reclaimed.

We offer discounted pricing on wholesale quantity orders.
